Mekholi

Education ERP — Menu, Page & Form Specification for Development

Core + Plugin Architecture · Fixed Navigation (as approved) · Bangla & English

Stack: Vue 3 (Composition API) + TypeScript + SCSS/Tailwind · FastAPI + PostgreSQL backend
Scope: renamed from "Shikkha ERP" to **Mekholi** · navigation is fixed — no new features added
Version 1.0 · July 2026

0. How to use this document

This blueprint takes the fixed sidebar navigation (five roles: Super Admin, Institute Admin, Teacher, Accountant, Student/Parent Portal) exactly as approved, and adds only the **development-level detail** a Vue/TS engineer needs to build each screen: page type, table columns, form fields with types/validation, actions/buttons, suggested REST endpoints, and Vue component/route naming. No menu, sub-menu, or feature has been added or removed versus the approved navigation JSON.

Pages are grouped by **module** (one module = one top-level sidebar menu). Where the same module appears for more than one role with the same or overlapping sub-menu items (e.g. Attendance for Institute Admin, Teacher, and Portal), it is documented once with role badges shown per page, so the same underlying Vue components and API contracts are reused across role-scoped routes instead of being rebuilt per role.

Role legend:

SA

 Super Admin

IA

 Institute Admin

TC

 Teacher

AC

 Accountant

PP

 Student/Parent Portal

1. Frontend architecture & conventions (Vue 3 / TS / SCSS)

Concern	Convention used throughout this document
Routing	One Vue Router route per page, path pattern <code>{role}/{module-slug}/{page-slug}</code> e.g. <code>/admin/students/list</code> , <code>/teacher/exam/mark-entry</code> , <code>/portal/fees/due</code> . Router-level <code>meta.permission</code> key gates access; a global navigation guard checks the user's enabled-plugin + permission set before entering.
Sidebar assembly	Sidebar is not hard-coded per role : it is generated at runtime by merging the fixed navigation JSON (this project's <code>shikkha_erp_navigation.json</code> , renamed to <code>mekholi_navigation.json</code>) with the logged-in user's role and the tenant's enabled plugin list, exactly mirroring the Core's "Plugin Manager merges menu contributions" behaviour described in the blueprint PDF.
Component naming	<code>PascalCase</code> + <code>Page</code> suffix for routed views (<code>StudentListPage.vue</code>), <code>Modal / Wizard</code> suffix for dialogs/multi-step flows, plain <code>PascalCase</code> for shared presentational components (<code>DataTable.vue</code> , <code>FormField.vue</code>).
State	One Pinia store per module (e.g. <code>useStudentStore</code>), actions mirror REST verbs (<code>fetchList</code> , <code>fetchOne</code> , <code>create</code> , <code>update</code> , <code>remove</code>). Cross-module data (Student, Staff, AcademicYear, Class/Section IDs) is read via a shared <code>useCoreDataStore</code> — never duplicated into a plugin's own store.
Forms	Every form in this document is built as a typed interface first (<code>interface StudentForm { ... }</code>), validated with a schema library (e.g. <code>vee-validate</code> + <code>yup / zod</code>), and submitted through the module's Pinia action — never directly from the component.
Bilingual fields	Any field marked "bn/en pair" in this document is two inputs bound to <code>{ name_bn: string; name_en: string }</code> , styled with an SCSS <code>.field-pair</code> mixin, not a language switcher on one input.
Styling	SCSS component-scoped styles + a shared <code>_tokens.scss</code> (spacing, color, radius variables aligned to MastorsCDN tokens referenced in the original blueprint) + Tailwind utility classes for layout only, per the frontend-design conventions already in use on this stack.
Data tables	Every "List/Table columns" list in this document maps 1:1 to a shared <code><DataTable :columns :rows /></code> component instance — columns are config, not bespoke markup per page.
Print/PDF pages	Any page marked "template print/generate" (ID cards, mark sheets, TC, invoices) renders via a print-CSS route (<code>/print/...</code> , no sidebar) and is also exposed as a backend PDF endpoint for batch generation, so both live-print and async-batch use the same template source.

Rename checklist: replace `shikkha_erp_navigation.json` → `mekholi_navigation.json` , update app title/meta tags, favicon, email/SMS sender name, PDF letterhead footer ("KEHEM-IT" line may stay as the vendor credit), and the login-page/logo asset. No route paths, permission keys, or menu labels change as part of the rename.

2. Development roadmap — page-level breakdown

Same 10-phase sequence as the original blueprint (~52 weeks sequential, ~4–5 months for a sellable MVP with a 2-track team), re-expressed at page level so each phase has a concrete "done" checklist tied to the modules in Section 3.

Phase	Focus	Duration	Page-level deliverables
0	Discovery & Foundations	3 wk	- Finalize grading-scheme & fee-structure JSON schema - Lock plugin manifest (plugin.json) format - DB schema-per-tenant strategy decided - Vue3+TS+SCSS base kit: tokens, layout shell, sidebar-from-JSON renderer - CI/CD skeleton
1	Core Kernel	5 wk	- Institute Setup: Profile & EIIN, Branches, Academic Year, Class/Section/Group/Shift, Holidays, Grading Scheme - Users & Roles: accounts, Role & Permission matrix, Audit Log - Auth (JWT + refresh), 2FA for admin - Admin shell UI + dynamic sidebar (Super Admin + Institute Admin frames)
2	SIS, Admission & Attendance	6 wk	- Students: List, Add/Bulk Import, Promote/Transfer, ID Cards, TC & Certificates - Admission: Form Builder → Applications → Tests → Merit List → Document Verification → Seat/Quota - Attendance: Take Attendance (teacher), Student/Staff Attendance (admin), Reports, Biometric hooks - Portal login + Guardian linkage
3	Academics & Exam/Result	6 wk	- Academics: Subjects, Timetable builder, Syllabus, Homework, Lesson Plans - Exam & Result: Schedule → Mark Entry → Mark Approval → Tabulation → Publish → Mark-sheet print - Grading Engine must run against all 3 configured scheme types (GPA/percentage/Hifz) before sign-off
4	Fees & Accounts	5 wk	- Fee Structure/Heads/Discounts - Invoices/Dues generation (bulk monthly run) - Collect Payment + bKash/Nagad/SSLCommerz adapters - Reconciliation, Expenses, Ledger & Reports - Portal: Due List, Pay Online, Payment History
5	Communication & Website CMS	5 wk	- Composer, Templates, Circulars/Notices, PTM Scheduler - Event-bus wiring: result.published → SMS, invoice.due → reminder, leave.approved → substitute notify - Website: Page builder, Theme & Branding, Gallery, Results Lookup, Forms Library, SEO/Domain
6	HR/Payroll, Library, Transport, Hostel, Inventory	6 wk	- Staff(HR): Employee List, Attendance, Leave, Payroll (MPO/Private), Evaluation, Substitute Assignment - Library: Catalogue, Issue/Return, Fines, Self-service search - Transport: Routes/Vehicles, Student Allocation, Driver Assignment, GPS - Hostel: Rooms/Allocation, Roll Call, Mess Billing, Visitor Log - Inventory: Stock, Assets, Reorder alerts
7	LMS / Online Classes & ID Card Studio	4 wk	- Live Classes (BBB/Jitsi/Zoom), Content Library, Quizzes, Assignments, Discussion Forums - ID Card & Certificate Studio (template designer feeding Students & ID Cards / TC & Certificates)
8	Reports, Analytics & Government/Board Connectors	4 wk	- Academic/Financial/Custom-Scheduled reports - BANBEIS/EMIS export, MPO reporting, Board result-verification connector (isolated, independently updatable plugins)
9	Multi-tenant SaaS hardening	4 wk	- Super Admin: Tenants, Plugin Marketplace, Global Settings, System Health - Schema-per-tenant provisioning wizard automation - Subscription/Billing + Plugin pricing - Load testing
10	Pilot, QA & Launch	4 wk	- Pilot with 2–3 real institutions (Bangla-medium MPO + English Medium + Madrasa) - Bug bash across all 5 role sidebars - Security audit (RBAC field-masking, payment endpoints) - Go-live

MVP cut-line (sellable first release): Core Kernel + SIS + Admission + Attendance + Exam/Result (configurable GPA engine) + Fees/Accounts (bKash/Nagad) + SMS Communication + basic Website CMS — i.e. Phases 0–5 of the table above. Everything else (HR/Payroll, Library, Transport, Hostel, Inventory, LMS, Alumni, Government connectors, SaaS multi-tenant hardening) layers on after MVP, matching how the reference Bangladesh ERPs (Pathshala Soft/Zoom IT, Digital Pathshala) shipped core-academic-and-fee first.

3. Page-by-page specification, by module

Platform-operator landing page. Read-only aggregation across all tenants; no write forms, only drill-down links.

Platform overview

SA

DASHBOARD

KPI cards + trend charts aggregated across all tenants.

LIST/TABLE COLUMNS

Total tenants Active students (sum) MRR Open tickets Uptime (30d)

ACTIONS / BUTTONS

- Refresh
- Export snapshot (PDF/PNG)

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/overview

VUE COMPONENT(S) / ROUTE

PlatformOverviewPage.vue

Active tenants

SA

LIST

Grid of currently active institution tenants with health/usage signals.

LIST/TABLE COLUMNS

Institution EIIN Plan Students Last login Status

ACTIONS / BUTTONS

- Filter by plan
- View tenant detail

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/tenants?status=active

VUE COMPONENT(S) / ROUTE

Revenue

SA

DASHBOARD+TABLE

MRR/ARR trend, per-plan breakdown, churn, upcoming renewals.

LIST/TABLE COLUMNS

Month New MRR Churned MRR Net MRR Active subscriptions

ACTIONS / BUTTONS

- Export CSV
- Filter by date range

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/revenue?range=

VUE COMPONENT(S) / ROUTE

RevenueReportPage.vue

Support tickets

SA

LIST+FORM

Cross-tenant support queue synced from Communication/Support plugin.

LIST/TABLE COLUMNS

- Ticket #
- Institution
- Subject
- Priority
- Assignee
- Status
- Age

FORM FIELDS

Field	Type	Required	Notes
Assignee	select(user)	Required	Support staff only
Priority	select: Low/Medium/High/Urgent	Required	
Status	select: Open/In Progress/Waiting/Resolved/Closed	Required	
Internal note	textarea	Optional	Not visible to tenant

ACTIONS / BUTTONS

- Assign
- Change status
- Reply

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/tickets
- PATCH /api/v1/platform/tickets/{id}

VUE COMPONENT(S) / ROUTE

SupportTicketListPage.vue / SupportTicketDetailPage.vue

Full lifecycle management of institution tenants (provisioning, billing status, suspension).

Institution list

LIST

Master list of every tenant provisioned on the platform.

LIST/TABLE COLUMNS

VUE COMPONENT(S) / ROUTE

TenantListPage.vue

SA

Create institution

WIZARD (MULTI-STEP FORM)

Provisioning wizard: creates schema/row-scope, seeds default plugin set, creates first Institute Admin user.

FORM FIELDS

Field	Type	Required	Notes
Institution name (bn/en)	text (bilingual pair)	Required	
EIIN	text, 6-digit numeric	Required	Uniqueness checked against BANBEIS format
Institution type	select: Govt/MP0, Bangla Medium, English Version, English Medium, Madrasa-Aliya, Madrasa-Qawmi/Hifz, College, Technical	Required	
Board affiliation	select: Dhaka/Rajshahi/Chattogram/Barishal/Sylhet/Mymensingh/Jashore/Dinajpur/Cumilla/BMEB/BTEB	Required	
Address	textarea	Required	
Primary contact name/phone/email	text/tel/email	Required	
Plan	select: Self-hosted / SaaS-Basic / SaaS-Pro / Multi-campus Group	Required	
Default plugins	multi-select checklist (SIS, Attendance, Exam, Fees, Website... pre-checked per MVP scope)	Required	
Admin user email/temp password	email/generated	Required	Sends invite email

ACTIONS / BUTTONS

- Save & Provision
- Cancel

SUGGESTED API ENDPOINTS

- POST /api/v1/platform/tenants

VUE COMPONENT(S) / ROUTE

TenantCreateWizard.vue (step components: TenantBasicsStep, TenantPlanStep, TenantAdminStep)

SA

Suspend/Activate

SA

ACTION MODAL ON INSTITUTION LIST

Toggle tenant access without deleting data; used for billing holds or ToS issues.

FORM FIELDS

Field	Type	Required	Notes
Reason	select: Non-payment/ToS violation/Requested by client/Other	Required	
Note	textarea	Optional	
Effective date	date	Optional	Defaults to now

ACTIONS / BUTTONS

- Suspend
- Reactivate

SUGGESTED API ENDPOINTS

- POST /api/v1/platform/tenants/{id}/suspend
- POST /api/v1/platform/tenants/{id}/activate

VUE COMPONENT(S) / ROUTE

TenantStatusModal.vue

Plan & billing

SA

DETAIL + FORM

Per-tenant subscription plan, seat/branch limits, invoice history.

LIST/TABLE COLUMNS

- Invoice #
- Period
- Amount
- Status
- Paid on

FORM FIELDS

Field	Type	Required	Notes
Plan tier	select	Required	
Branch limit	number	Required	
Student seat limit	number	Required	
Billing cycle	select: Monthly/Yearly	Required	
Next renewal date	date	Optional	read-only, computed

ACTIONS / BUTTONS

- Change plan
- Generate invoice
- Mark invoice paid
- Export invoice PDF

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/tenants/{id}/billing
- PATCH /api/v1/platform/tenants/{id}/billing

VUE COMPONENT(S) / ROUTE

TenantBillingPage.vue

Roles: Super Admin | Route base: /platform/plugins

Manages the plugin catalogue referenced by the Core's Plugin Manager contract (plugin.json manifest).

Installed plugins

SA

LIST

Plugins currently registered in the platform-wide catalogue (not per-tenant enablement — that lives under Institute Admin > Plugins & Settings).

LIST/TABLE COLUMNS

Plugin Version Status Tenants using it Last updated

ACTIONS / BUTTONS

- Disable globally
- View manifest
- Rollback version

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/plugins?state=installed

VUE COMPONENT(S) / ROUTE

InstalledPluginsPage.vue

Available plugins

SA

GRID/CATALOGUE

Plugins uploaded but not yet published, or third-party submissions pending review.

LIST/TABLE COLUMNS

Plugin Vendor Version Submitted Review status

FORM FIELDS

Field	Type	Required	Notes
Review decision	select: Approve/Reject/Request changes	Required	
Reviewer note	textarea	Optional	

ACTIONS / BUTTONS

- Publish
- Reject
- Request changes

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/plugins?state=pending
- PATCH /api/v1/platform/plugins/{id}/review

VUE COMPONENT(S) / ROUTE

PluginReviewPage.vue

Version releases

SA

LIST + FORM

Release notes and semver history per plugin, tied to plugin.json compatibility fields.

LIST/TABLE COLUMNS

Plugin Version Core-version compat Release date Changelog

FORM FIELDS

Field	Type	Required	Notes
Plugin	select	Required	
Version (semver)	text	Required	validated x.y.z
Min core version	text	Required	
Changelog	markdown textarea	Required	
Release channel	select: Stable/Beta	Required	

ACTIONS / BUTTONS

- Publish release
- Deprecate version

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/plugins/{id}/versions
- POST /api/v1/platform/plugins/{id}/versions

VUE COMPONENT(S) / ROUTE

PluginReleasesPage.vue

Pricing

SA

FORM

Per-plugin add-on pricing used by tenant self-serve enable/disable (Institute Admin side).

FORM FIELDS

Field	Type	Required	Notes
Plugin	select	Required	
Pricing model	select: Free/Flat monthly/Per-student/One-time	Required	
Price (BDT)	number	Required	
Trial days	number	Optional	

ACTIONS / BUTTONS

- Save pricing

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/plugins/{id}/pricing
- PUT /api/v1/platform/plugins/{id}/pricing

VUE COMPONENT(S) / ROUTE

PluginPricingPage.vue

Platform-level configuration shared by all tenants (secrets, templates, banners).

SMS/Payment gateway credentials

SA

FORM (SECRETS)

Master aggregator credentials (platform-level fallback); tenants may override with their own merchant credentials under Institute Admin settings.

FORM FIELDS

Field	Type	Required	Notes
Gateway	select: bKash/Nagad/Rocket/SSLCommerz/SMS Aggregator	Required	
API key / App key	password (masked, write-only)	Required	Never returned in GET responses
API secret	password (masked, write-only)	Required	
Sandbox/Live toggle	boolean	Required	

ACTIONS / BUTTONS

- Save (encrypted at rest)
- Test connection

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/settings/gateways (values masked)
- PUT /api/v1/platform/settings/gateways

VUE COMPONENT(S) / ROUTE

GatewayCredentialsPage.vue

Email templates

SA

LIST + RICH-TEXT FORM

System transactional email templates (welcome, invoice, password reset) with placeholder tokens.

LIST/TABLE COLUMNS

Template key Subject Last edited

FORM FIELDS

Field	Type	Required	Notes
Subject	text	Required	
Body	rich text editor with {{token}} placeholders	Required	
Language variant	select: bn/en	Required	

ACTIONS / BUTTONS

- Save
- Send test email
- Preview

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/email-templates
- PUT /api/v1/platform/email-templates/{key}

VUE COMPONENT(S) / ROUTE

EmailTemplateEditorPage.vue

System-wide announcements

SA

LIST + FORM

Banner/notice shown inside every tenant's admin shell (e.g. maintenance windows).

FORM FIELDS

Field	Type	Required	Notes
Message (bn/en)	textarea pair	Required	
Severity	select: Info/Warning/Critical	Required	
Visible from / until	date-time range	Required	
Target	select: All tenants/By plan	Required	

ACTIONS / BUTTONS

- Publish
- Unpublish

SUGGESTED API ENDPOINTS

- GET /api/v1/platform/announcements
- POST /api/v1/platform/announcements

VUE COMPONENT(S) / ROUTE

AnnouncementsPage.vue

Ops visibility; read-only monitoring surfaces sourced from Prometheus/Grafana/Sentry/Loki.

Server metrics

SA

DASHBOARD (EMBEDDED CHARTS)
CPU/RAM/DB connections/queue depth, embedded Grafana panels or native charts via API.

SUGGESTED API ENDPOINTS
[GET /api/v1/platform/metrics](#) (proxy to Prometheus)

VUE COMPONENT(S) / ROUTE
ServerMetricsPage.vue

Job queue status

SA

LIST
Celery/Redis queue view — pending, retrying, failed jobs (SMS dispatch, PDF generation, exports).

LIST/TABLE COLUMNS
[Job ID](#) [Type](#) [Tenant](#) [Status](#) [Attempts](#) [Enqueued at](#)

ACTIONS / BUTTONS
[Retry job](#)
[Purge failed](#)

SUGGESTED API ENDPOINTS
[GET /api/v1/platform/jobs?status=](#)

VUE COMPONENT(S) / ROUTE
JobQueuePage.vue

Error logs

SA

LIST
Sentry-sourced error stream, filterable by tenant/service/severity.

LIST/TABLE COLUMNS
[Timestamp](#) [Service](#) [Tenant](#) [Message](#) [Severity](#) [Count \(24h\)](#)

ACTIONS / BUTTONS
[Open in Sentry](#)
[Mark resolved](#)

SUGGESTED API ENDPOINTS
[GET /api/v1/platform/errors](#)

VUE COMPONENT(S) / ROUTE
ErrorLogPage.vue

Backups

SA

LIST + ACTION
Per-tenant automated backup status and manual trigger/restore controls.

LIST/TABLE COLUMNS
[Institution](#) [Last backup](#) [Size](#) [Storage location](#) [Status](#)

ACTIONS / BUTTONS
[Trigger backup now](#)
[Download](#)
[Restore \(confirmation modal\)](#)

SUGGESTED API ENDPOINTS
[GET /api/v1/platform/backups](#)
[POST /api/v1/platform/backups/{tenant_id}/run](#)

VUE COMPONENT(S) / ROUTE
BackupsPage.vue

Institution-level landing page; role-scoped KPI widgets, no forms.

Enrolment

IA

WIDGET

Total students, YoY trend, by class/section.

SUGGESTED API ENDPOINTS

- GET /api/v1/dashboard/enrolment

VUE COMPONENT(S) / ROUTE

EnrolmentWidget.vue

Attendance %

IA

WIDGET

Today's/weekly attendance % with drill-down by class.

SUGGESTED API ENDPOINTS

- GET /api/v1/dashboard/attendance-summary

VUE COMPONENT(S) / ROUTE

AttendanceWidget.vue

Fee collection

IA

WIDGET

Collected vs due this month, gateway breakdown.

SUGGESTED API ENDPOINTS

- GET /api/v1/dashboard/fee-summary

VUE COMPONENT(S) / ROUTE

FeeCollectionWidget.vue

Pass rate

IA

WIDGET

Latest published exam pass % by class/group.

SUGGESTED API ENDPOINTS

- GET /api/v1/dashboard/pass-rate

VUE COMPONENT(S) / ROUTE

PassRateWidget.vue

Notices widget

IA

WIDGET

Latest 5 circulars/notices with publish shortcut.

SUGGESTED API ENDPOINTS

- GET /api/v1/notices?limit=5

VUE COMPONENT(S) / ROUTE

NoticesWidget.vue

Core-kernel configuration — foundational data every other plugin depends on. Build this first (Phase 1).

Profile & EIIN

IA

FORM

Institution master profile; EIIN is a first-class, validated field used on every printed document/export.

FORM FIELDS

Field	Type	Required	Notes
Institution name (bn)	text	Required	
Institution name (en)	text	Required	
EIIN	text, exactly 6 digits	Required	Format-validated; used in BANBEIS/board exports
Institution type	select (per domain list: MP0/Bangla Medium/English Version/English Medium/Madrasa-Aliya/Madrasa-Qawmi/College/Technical)	Required	
Board affiliation	select (9 general boards + BMEB + BTEB)	Required	
Logo	file upload (png/svg, max 2MB)	Optional	Used on letterhead/ID cards
Letterhead header/footer text	textarea (bn/en)	Optional	
Address, phone, email, website	text/tel/email/url	Required	
Established year	number	Optional	

ACTIONS / BUTTONS

- Save

SUGGESTED API ENDPOINTS

- GET /api/v1/institute/profile
- PUT /api/v1/institute/profile

VUE COMPONENT(S) / ROUTE

InstituteProfilePage.vue

Branches/Campus

IA

LIST + FORM

Multi-campus support (Tier 3 multi-tenancy); each branch scopes students/staff/finance via branch_id.

LIST/TABLE COLUMNS

Branch name Address EIIN (if separate) Head of branch Status

FORM FIELDS

Field	Type	Required	Notes
Branch name (bn/en)	text pair	Required	
Address	textarea	Required	
EIIN (if separately registered)	text	Optional	
Head of branch	select(staff)	Optional	

ACTIONS / BUTTONS

- Add branch
- Edit
- Deactivate

SUGGESTED API ENDPOINTS

- GET /api/v1/institute/branches
- POST /api/v1/institute/branches

VUE COMPONENT(S) / ROUTE

BranchListPage.vue / BranchFormModal.vue

Academic Year

IA

LIST + FORM

Session/year setup; drives attendance working-day calc, payroll periods, exam scheduling defaults.

LIST/TABLE COLUMNS

- Year label
- Start date
- End date
- Current?
- Status

FORM FIELDS

Field	Type	Required	Notes
Year label	text e.g. 2026-2027	Required	
Start date / End date	date range	Required	
Set as current year	boolean	Optional	Only one year can be current
Copy structure from previous year	boolean	Optional	Clones class/section/subject mapping

ACTIONS / BUTTONS

- Create year
- Set current
- Archive

SUGGESTED API ENDPOINTS

- GET /api/v1/institute/academic-years
- POST /api/v1/institute/academic-years

VUE COMPONENT(S) / ROUTE

AcademicYearPage.vue

Class/Section/Group/Shift

IA

4 LINKED LIST+FORM TABS

Foundational hierarchy referenced by nearly every other plugin (Student, Exam, Fee, Attendance).

FORM FIELDS

Field	Type	Required	Notes
Class: name + ordering	text + number	Required	e.g. Class 6, order 6
Section: name + class + capacity	text + select + number	Required	e.g. Section A
Group: name + applicable classes	text + multi-select	Optional	Science/Commerce/Arts, HSC+ only
Shift: name + start/end time	text + time range	Optional	Morning/Day
Curriculum track (per class)	select: NCTB/Cambridge/Edexcel/Madrassa/BTEB	Required	

ACTIONS / BUTTONS

- Add
- Reorder (drag handle)
- Delete (blocked if students assigned)

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/institute/classes
- /sections
- /groups
- /shifts

VUE COMPONENT(S) / ROUTE

ClassSectionGroupShiftPage.vue (tabbed)

Holidays & Working Days

IA

CALENDAR + FORM

Holiday calendar feeding attendance working-day and payroll day-count calculations.

LIST/TABLE COLUMNS

Date Title Type (Govt/Religious/Institution) Recurring?

FORM FIELDS

Field	Type	Required	Notes
Date / date range	date or range	Required	
Title (bn/en)	text pair	Required	
Type	select: Government/Religious/Institution-specific	Required	
Recurring yearly	boolean	Optional	

ACTIONS / BUTTONS

- Add holiday
- Bulk import (CSV)
- Delete

SUGGESTED API ENDPOINTS

- GET /api/v1/institute/holidays
- POST /api/v1/institute/holidays

VUE COMPONENT(S) / ROUTE

HolidayCalendarPage.vue

Grading Scheme

IA

CONFIGURABLE RULE-BUILDER FORM

THE most Bangladesh-specific settings page — must not be hard-coded. Drives Exam & Result mark→grade→GPA computation.

FORM FIELDS

Field	Type	Required	Notes
Scheme type	select: NCTB 8-point GPA / Percentage-Letter (Cambridge-Edexcel) / Hifz Para-Sipara / Custom	Required	
Grade bands table	repeatable rows: min%, max%, letter grade, grade point	Required	e.g. 80-100=A+=5.00 ... 33-39=D=1.00, <33=F=0.00
Per-subject pass mark	number (%)	Required	Applied per subject before GPA calc
4th-subject bonus rule	toggle + condition builder	False by default	Bonus only if grade point > 2.00, per official formula
Apply to	multi-select: Class levels / Groups / Curriculum track	Required	

ACTIONS / BUTTONS

- Save scheme
- Duplicate scheme
- Preview sample computation

SUGGESTED API ENDPOINTS

- GET /api/v1/institute/grading-schemes
- POST /api/v1/institute/grading-schemes

VUE COMPONENT(S) / ROUTE

GradingSchemeBuilderPage.vue

Roles: Institute Admin | Route base: /admin/admission

Inquiry-to-enrolment pipeline; on confirmation, hands off to Students module.

Online Form Builder

IA

DRAG-DROP FORM BUILDER

Per-class, per-year custom admission form fields (institution-type aware, e.g. Hifz progress field for Madrasa).

FORM FIELDS

Field	Type	Required	Notes
Field label (bn/en)	text pair	Required	
Field type	select: text/number/date/select/file/checkbox	Required	
Required?	boolean	Optional	
Applies to class(es)	multi-select	Required	
Field order	drag handle / number	Optional	

ACTIONS / BUTTONS

- Add field
- Reorder
- Publish form
- Preview as applicant

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/admission/form-schema

VUE COMPONENT(S) / ROUTE

AdmissionFormBuilderPage.vue

Applications

IA

LIST + DETAIL

Inbox of submitted applications with status pipeline.

LIST/TABLE COLUMNS

- Applicant name
- Applying class
- Submitted on
- Payment status
- Test status
- Overall status

FORM FIELDS

Field	Type	Required	Notes
Status	select: Received/Under review/Shortlisted/Test scheduled/Selected/Rejected/Enrolled	Required	
Internal note	textarea	Optional	

ACTIONS / BUTTONS

- View application
- Change status
- Bulk shortlist
- Export CSV

SUGGESTED API ENDPOINTS

- GET /api/v1/admission/applications
- PATCH /api/v1/admission/applications/{id}

VUE COMPONENT(S) / ROUTE

AdmissionApplicationListPage.vue / AdmissionApplicationDetailPage.vue

Admission Tests

IA

LIST + FORM

Entrance test scheduling and mark entry; generates admit cards.

LIST/TABLE COLUMNS

Test name Class Date Venue Applicants scheduled

FORM FIELDS

Field	Type	Required	Notes
Test name	text	Required	
Class	select	Required	
Date/time	date-time	Required	
Venue/room	text	Optional	
Full marks / pass marks	number/number	Required	

ACTIONS / BUTTONS

- Schedule test
- Generate admit cards (PDF batch)
- Enter marks (bulk grid)

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/admission/tests
- POST /api/v1/admission/tests/{id}/marks

VUE COMPONENT(S) / ROUTE

AdmissionTestPage.vue

Merit List

IA

AUTO-GENERATED LIST + OVERRIDE

Ranked list from test marks + quota rules; supports manual override with audit note.

LIST/TABLE COLUMNS

Rank Applicant Test marks Quota applied Final decision

ACTIONS / BUTTONS

- Generate/regenerate
- Manual override (with reason)
- Publish
- Export/Print

SUGGESTED API ENDPOINTS

- POST /api/v1/admission/merit-list/generate
- GET /api/v1/admission/merit-list

Document Verification

IA

CHECKLIST PER APPLICANT

Verifies uploaded documents (birth cert, TC, photo) before final enrolment confirmation.

LIST/TABLE COLUMNS

Document type Uploaded? Verified? Verified by Note

FORM FIELDS

Field	Type	Required	Notes
Verification status per doc	checkbox + note	Required	

ACTIONS / BUTTONS

- Mark verified
- Request re-upload
- Approve for enrolment

SUGGESTED API ENDPOINTS

- GET/PATCH /api/v1/admission/applications/{id}/documents

VUE COMPONENT(S) / ROUTE

DocumentVerificationPage.vue

Seat/Quota

IA

FORM + TABLE

Per-class seat capacity and quota category management (e.g. freedom-fighter, staff-child, sibling).

LIST/TABLE COLUMNS

- Class
- Total seats
- Quota category
- Quota seats
- Filled

FORM FIELDS

Field	Type	Required	Notes
Class	select	Required	
Total seats	number	Required	
Quota category	text	Optional	
Quota seats	number	Optional	

ACTIONS / BUTTONS

- Save

SUGGESTED API ENDPOINTS

- GET/PUT /api/v1/admission/seats

VUE COMPONENT(S) / ROUTE

SeatQuotaPage.vue

Admission Settings

IA

FORM

Global admission-cycle settings: open/close dates, fee amount, gateway, waiting-list rules.

FORM FIELDS

Field	Type	Required	Notes
Admission open/close date	date range	Required	
Application fee (BDT)	number	Required	
Payment gateways enabled	multi-select: bKash/Nagad/SSLCommerz	Required	
Waiting list size	number	Optional	
Sibling/staff-child discount rule	toggle + %	Optional	

ACTIONS / BUTTONS

- Save

SUGGESTED API ENDPOINTS

- GET/PUT /api/v1/admission/settings

VUE COMPONENT(S) / ROUTE

AdmissionSettingsPage.vue

SIS — the single source of truth for enrolled students; every other plugin references Student by core UUID.

Student List

IA

LIST + 360° DETAIL

Searchable/filterable master list; detail view aggregates profile, guardian, class history, documents, medical.

LIST/TABLE COLUMNS

Photo Student ID Name (bn/en) Class/Section Roll Guardian Status

FORM FIELDS

Field	Type	Required	Notes
Personal: name bn/en, DOB, gender, blood group, NID/Birth-cert no.	text/date/select	Required	
Guardian(s): name, relation, phone, NID, portal access toggle	repeatable group	Required	supports multiple guardians
Address (present/permanent)	textarea pair	Required	
Previous institution	text	Optional	
Medical notes	textarea	Optional	Restricted field visibility per RBAC
Class/Section/Roll (current)	select/select/number	Required	
Documents	file upload list	Optional	birth cert, TC, photo

ACTIONS / BUTTONS

- Add student
- Edit
- View 360° profile
- Deactivate
- Print profile

FORM

Driver-to-vehicle/route assignment with license/document tracking.

FORM FIELDS

Field	Type	Required	Notes
Driver name/phone/license no.	text	Required	
Assigned vehicle/route	select	Required	
License expiry	date	Optional	

ACTIONS / BUTTONS

- Assign
- Edit

SUGGESTED API ENDPOINTS

- GET/POST `/api/v1/transport/drivers`

VUE COMPONENT(S) / ROUTE

DriverAssignmentPage.vue

GPS Tracking

IA

LIVE MAP VIEW

Optional integration surface for vehicle GPS provider; read-only live map.

SUGGESTED API ENDPOINTS

- [GET /api/v1/transport/gps/live](#)

VUE COMPONENT(S) / ROUTE

GpsTrackingPage.vue

My Route/Stoppage

PP

READ-ONLY VIEW

Parent/student view of assigned route, stoppage, pickup time, and (if enabled) live location.

SUGGESTED API ENDPOINTS

- [GET /api/v1/portal/transport/my-route](#)

VUE COMPONENT(S) / ROUTE

MyRoutePage.vue

Residential facility operations.

Rooms & Allocation

IA

LIST + ASSIGNMENT FORM

Room/seat inventory and student allocation; auto-links hostel fee to Accounts.

LIST/TABLE COLUMNS

Room no. Capacity Occupied Students

FORM FIELDS

Field	Type	Required	Notes
Room no.	text	Required	
Capacity	number	Required	
Assign student(s)	multi-select	Optional	

ACTIONS / BUTTONS

- Add room
- Allocate/vacate seat

SUGGESTED API ENDPOINTS

- GET/POST `/api/v1/hostel/rooms`
- `/allocations`

VUE COMPONENT(S) / ROUTE

RoomAllocationPage.vue

Roll Call

IA

CHECKLIST GRID

Daily/nightly hostel attendance roll call.

LIST/TABLE COLUMNS

Room Student Present?

ACTIONS / BUTTONS

- Save roll call

SUGGESTED API ENDPOINTS

- POST `/api/v1/hostel/roll-call`

VUE COMPONENT(S) / ROUTE

HostelRollCallPage.vue

Mess/Meal Billing

IA

FORM + REPORT

Optional sub-module for meal plan billing tied to Accounts fee heads.

FORM FIELDS

Field	Type	Required	Notes
Meal plan	select	Required	
Monthly rate	number	Required	

ACTIONS / BUTTONS

- Generate mess bill

SUGGESTED API ENDPOINTS

Asset Register

IA

LIST + FORM

Furniture/computers/lab-device register with depreciation tag.

LIST/TABLE COLUMNS

- Asset
- Category
- Purchase date
- Value
- Depreciation
- Location

FORM FIELDS

Field	Type	Required	Notes
Asset name/category	text/select	Required	
Purchase date/value	date/number	Required	
Depreciation method/%	select/number	Optional	
Location/assigned to	text	Optional	

ACTIONS / BUTTONS

- Add asset
- Edit
- Mark disposed

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/inventory/assets

VUE COMPONENT(S) / ROUTE

AssetRegisterPage.vue

Reorder Alerts

IA

AUTO-LIST

Items below reorder threshold.

LIST/TABLE COLUMNS

- Item
- Current stock
- Reorder level

ACTIONS / BUTTONS

- Set reorder level
- Dismiss alert

SUGGESTED API ENDPOINTS

- GET /api/v1/inventory/reorder-alerts

VUE COMPONENT(S) / ROUTE

ReorderAlertsPage.vue

Roles: Institute Admin, Teacher, Student/Parent Portal | Route base: `/{{role}}/communication`

Single outbound-message adapter layer; every plugin event (result.published, invoice.due, leave.approved) can trigger through here.

SMS/Notice Composer / Messages to Parents / Messages

IA TC PP

COMPOSE FORM

Admin sends bulk/triggered SMS+notices; teacher messages parents of their class; portal users read/reply.

FORM FIELDS

Field	Type	Required	Notes
Recipient scope	select: All/Class/Section/Individual	Required	
Channel	multi-select: SMS/Push/Email/In-app	Required	
Message body (bn/en)	textarea, with template token support	Required	
Schedule send	date-time	Optional	optional, else immediate

ACTIONS / BUTTONS

- Send now
- Schedule
- Save as draft

SUGGESTED API ENDPOINTS

- POST /api/v1/communication/send

VUE COMPONENT(S) / ROUTE

MessageComposerPage.vue

Templates

IA

LIST + FORM

Reusable SMS/notice templates with placeholder tokens (student name, due amount, exam name).

LIST/TABLE COLUMNS

Template name Channel Last used

FORM FIELDS

Field	Type	Required	Notes
Template name	text	Required	
Body with {{tokens}}	textarea	Required	

ACTIONS / BUTTONS

- Save
- Duplicate
- Delete

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/communication/templates

VUE COMPONENT(S) / ROUTE

MessageTemplatePage.vue

Circulars / Notices

IA TC PP

LIST + FORM

Formal notice board publishing, targeted by class/section/role; portal/teacher views are read/limited-post.

LIST/TABLE COLUMNS

- Title
- Target audience
- Published date
- Attachment

FORM FIELDS

Field	Type	Required	Notes
Title	text	Required	
Body	rich text	Required	
Target audience	multi-select: role/class/section	Required	
Attachment	file upload	Optional	

ACTIONS / BUTTONS

- Publish (admin)
- Post to own class (teacher)
- View (portal)

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/communication/notices

VUE COMPONENT(S) / ROUTE

NoticeBoardPage.vue

PTM Scheduler / PTM

IA TC

CALENDAR + BOOKING FORM

Parent-teacher meeting scheduling; teacher sets available slots, admin oversees overall calendar.

FORM FIELDS

Field	Type	Required	Notes
Date/time slots	repeatable date-time	Required	
Class/Section	select	Required	
Location/link (online)	text	Optional	

ACTIONS / BUTTONS

- Create slots
- Book (parent, via portal)
- Cancel

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/communication/ptm

VUE COMPONENT(S) / ROUTE

PtmSchedulerPage.vue

Digital Diary

PP

TIMELINE VIEW

Read-only day-by-day feed combining homework, notices, attendance flags, and messages for the child.

SUGGESTED API ENDPOINTS

- GET /api/v1/portal/digital-diary

VUE COMPONENT(S) / ROUTE

DigitalDiaryPage.vue

Roles: Institute Admin, Teacher, Student/Parent Portal | Route base: `/{role}/lms`

Blended/remote learning; live class integration via BBB/Jitsi/Zoom API.

Live Classes (Zoom/Jitsi) / Schedule-Join Live Class / Join Live Class

IA TC PP

SCHEDULER (ADMIN/TEACHER) + JOIN BUTTON (PORTAL)

Schedules and launches live sessions; recordings archived.

FORM FIELDS

Field	Type	Required	Notes
Class/Section/Subject	<code>select group</code>	Required	
Date/time	<code>date-time</code>	Required	
Video provider	<code>select: BBB/Jitsi/Zoom</code>	Required	
Recording enabled	<code>boolean</code>	Optional	

ACTIONS / BUTTONS

- Schedule (teacher/admin)
- Start/Join
- View recording

SUGGESTED API ENDPOINTS

- `GET/POST /api/v1/lms/live-classes`

VUE COMPONENT(S) / ROUTE

LiveClassPage.vue

Content Library

IA TC PP

FILE/VIDEO LIBRARY

Digital content (video/PDF/quiz) organized per subject/chapter.

LIST/TABLE COLUMNS

Title Subject/Chapter Type Uploaded by Date

FORM FIELDS

Field	Type	Required	Notes
Title	<code>text</code>	Required	
File/video	<code>file upload / URL</code>	Required	
Subject/Chapter	<code>select</code>	Required	

ACTIONS / BUTTONS

- Upload (teacher/admin)
- View/Download (portal)

SUGGESTED API ENDPOINTS

- `GET/POST /api/v1/lms/content`

VUE COMPONENT(S) / ROUTE

ContentLibraryPage.vue

Quizzes

IA TC

BUILDER + ATTEMPT VIEW

Objective-question quiz builder with auto-grading.

FORM FIELDS

Field	Type	Required	Notes
Quiz title	<code>text</code>	Required	
Questions (repeatable: text, options, correct answer)	<code>group</code>	Required	
Time limit	<code>number (minutes)</code>	Optional	

ACTIONS / BUTTONS

- Build quiz
- Publish
- View results

SUGGESTED API ENDPOINTS

- `GET/POST /api/v1/lms/quizzes`

VUE COMPONENT(S) / ROUTE

QuizBuilderPage.vue

Assignments / Submit Assignment

IA TC PP

POST (TEACHER) / SUBMIT (PORTAL)

LMS-linked assignment distinct from simple Homework — supports file submission + grading.

FORM FIELDS

Field	Type	Required	Notes
Assignment brief	rich text + attachment	Required	
Submission file	file upload (portal)	Required	
Grade/feedback (teacher)	number/textarea	Optional	

ACTIONS / BUTTONS

- Post
- Submit
- Grade

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/lms/assignments
- POST /api/v1/portal/lms/assignments/{id}/submit

VUE COMPONENT(S) / ROUTE

AssignmentPage.vue

Discussion Forums

IA TC

THREAD LIST + REPLY

Per-class Q&A forum.

LIST/TABLE COLUMNS

- Topic Started by Replies Last activity

FORM FIELDS

Field	Type	Required	Notes
Topic title	text	Required	
Message	rich text	Required	

ACTIONS / BUTTONS

- Start thread
- Reply
- Moderate (admin)

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/lms/forums

VUE COMPONENT(S) / ROUTE

DiscussionForumPage.vue

21Website

Roles: Institute Admin | **Route base:** /admin/website

Public school website CMS, rendered SSR/SSG from the same Vue3 app for SEO.

Pages

A

DRAG-DROP PAGE BUILDER

Section-block builder for home/about/admission/notices/gallery/faculty/contact pages.

LIST/TABLE COLUMNS

Page Status Last edited

FORM FIELDS

Field	Type	Required	Notes
Page title/slug	text	Required	
Blocks (repeatable: hero/text/image/gallery/form-embed)	drag-drop list	Required	
Publish status	select: Draft/Published	Required	

ACTIONS / BUTTONS

- Add page
- Edit blocks
- Publish
- Preview

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/website/pages

VUE COMPONENT(S) / ROUTE

WebsitePageBuilderPage.vue

Theme & Branding

A

FORM

Per-institution theme built on MastorsCDN design tokens (colors, logo, banner).

FORM FIELDS

Field	Type	Required	Notes
Primary/secondary color	color picker	Required	
Logo/banner image	file upload	Required	
Font pairing	select	Optional	

ACTIONS / BUTTONS

- Save
- Preview live

SUGGESTED API ENDPOINTS

Notices/News

A

LIST + FORM

Public-facing notice/news feed, auto-synced from Communication > Notices where marked public.

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/website/news

VUE COMPONENT(S) / ROUTE

PublicNoticesPage.vue

Gallery

IA

MEDIA GRID

Photo/video gallery uploads with album grouping.

FORM FIELDS

Field	Type	Required	Notes
Album name	text	Required	
Media files	multi-file upload	Required	

ACTIONS / BUTTONS

- Upload
- Create album
- Delete

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/website/gallery

VUE COMPONENT(S) / ROUTE

GalleryManagerPage.vue

Results Lookup

IA

PUBLIC SEARCH CONFIG

Configures the roll-based public results-lookup page fed live from Exam & Result data.

FORM FIELDS

Field	Type	Required	Notes
Enable public lookup	boolean	Required	
Fields shown publicly	multi-select	Required	

ACTIONS / BUTTONS

- Save

SUGGESTED API ENDPOINTS

- GET/PUT /api/v1/website/results-lookup-config

VUE COMPONENT(S) / ROUTE

ResultsLookupConfigPage.vue

Forms Library

IA

LIST (DOWNLOADABLE FORMS)

Downloadable-forms library (admission form, leave form templates, etc.) for public download.

FORM FIELDS

Field	Type	Required	Notes
Form title	text	Required	
File (PDF)	file upload	Required	

ACTIONS / BUTTONS

- Upload
- Delete

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/website/forms-library

VUE COMPONENT(S) / ROUTE

FormsLibraryPage.vue

SEO & Domain Settings

IA

FORM

Meta tags, sitemap, structured data, custom-domain mapping; separate mini-site config for multi-campus groups.

FORM FIELDS

Field	Type	Required	Notes
Meta title/description	text/textarea	Required	
Custom domain	text	Optional	CNAME instructions shown
Sitemap auto-generate	boolean	Required	

ACTIONS / BUTTONS

- Save
- Verify domain

SUGGESTED API ENDPOINTS

- GET/PUT /api/v1/website/seo-settings

VUE COMPONENT(S) / ROUTE

SeoDomainSettingsPage.vue

Post-graduation relationship management.

Directory

IA

LIST + OPT-IN FORM

Alumni directory grouped by batch/year, opt-in based.

LIST/TABLE COLUMNS

- Name
- Batch year
- Occupation
- Contact

FORM FIELDS

Field	Type	Required	Notes
Batch/graduation year	select	Required	
Occupation/company	text	Optional	
Contact visibility	select: Public/Alumni-only/Private	Required	

ACTIONS / BUTTONS

- Add/Invite
- Edit
- Search by batch

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/alumni/directory

VUE COMPONENT(S) / ROUTE

AlumniDirectoryPage.vue

Events

IA

LIST + FORM

Reunion/event announcements with RSVP.

LIST/TABLE COLUMNS

- Event
- Date
- Venue
- RSVPs

FORM FIELDS

Field	Type	Required	Notes
Event title	text	Required	
Date/venue	date/text	Required	
Description	rich text	Optional	

ACTIONS / BUTTONS

- Create event
- Send invite
- View RSVPs

SUGGESTED API ENDPOINTS

MPO Reporting

IA

EXPORT FORM

MPO teacher-salary reporting export, cross-linked with Payroll.

ACTIONS / BUTTONS

- Generate export

SUGGESTED API ENDPOINTS

- POST /api/v1/gov-integration/mpo-report

VUE COMPONENT(S) / ROUTE

MpoReportPage.vue

Board Result Verification

IA

CONNECTOR FORM

Per-board (SSC/HSC/Dakhil/Alim) result-verification/import connector, isolated plugin so it updates independently as government formats change.

FORM FIELDS

Field	Type	Required	Notes
Board	select	Required	
Import file / API sync	file/action	Required	

ACTIONS / BUTTONS

- Import
- Verify against internal records

SUGGESTED API ENDPOINTS

- POST /api/v1/gov-integration/board-result-import

VUE COMPONENT(S) / ROUTE

BoardResultVerificationPage.vue

Roles: Institute Admin | Route base: /admin/users

Core RBAC administration.

Staff/Parent/Student Accounts

IA

LIST + FORM

Login-account management separate from HR/SIS profile records (a Staff/Student record may or may not have portal login).

LIST/TABLE COLUMNS

Name Linked record (Staff/Student/Guardian) Role Last login Status

FORM FIELDS

Field	Type	Required	Notes
Link to person record	select (Staff/Student/Guardian)	Required	
Role	select	Required	
Email/phone (login ID)	email/tel	Required	
Force password reset	boolean	Optional	

ACTIONS / BUTTONS

- Create account
- Reset password
- Deactivate
- Impersonate (support, audit-logged)

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/users

VUE COMPONENT(S) / ROUTE

UserAccountListPage.vue

Roles & Permissions

IA

MATRIX FORM

Predefined + custom roles with granular permission-key checkboxes per menu/action; field-level masking (e.g. hide salary from non-HR).

LIST/TABLE COLUMNS

Permission key Description

FORM FIELDS

Field	Type	Required	Notes
Role name	text	Required	
Permission matrix	checkbox grid: module x action (view/create/edit/delete/export)	Required	
Field-level restrictions	toggle list e.g. 'Hide salary field'	Optional	

ACTIONS / BUTTONS

- Create role
- Save matrix
- Clone role

SUGGESTED API ENDPOINTS

- GET/POST /api/v1/roles
- /permissions

VUE COMPONENT(S) / ROUTE

RolePermissionMatrixPage.vue

Audit Log

IA

READ-ONLY LIST

Who changed what, when — required for financial and result-related actions.

LIST/TABLE COLUMNS

Timestamp User Action Entity Before→After

ACTIONS / BUTTONS

- Filter by user/entity/date
- Export

SUGGESTED API ENDPOINTS

- GET /api/v1/audit-log

VUE COMPONENT(S) / ROUTE
